Reference: With respect to Waste Management of Nevada and the correspondence dated 5/21/2012 Response)

Dear Mr. Prary:

Thank you for your response to the Nevada Divisions of Environmental Protections (Division) comments.  
Please find further requests for information below.

Item 1

Attachment A does not contain the detection monitoring program requested by the Division. Note that the Division has been requesting this proposed Detection Monitoring with associated statistical analysis pursuant to NAC 444.7485 through NAC 444.7488 repeatedly. The Division will cease review of the application until it has been submitted.

Item 2

The Division also requested an update to the Closure and Post Closure cost estimate pursuant to NAC 444.6851 & 68515. This also was not contained within the Response, as the waste disposal area is being proposed to be increased by at least two fold please provide new estimates for closure and post-closure. The Division will cease review of the application until it has been submitted.

Item 3

If the area is to accept Solid Waste in conjunction with C&D waste it must have a liner as required by NAC 444.681. Please provide a detailed liner configuration inclusive of subgrade specifications for this area as described by NAC 444.681(1)(b). As the Class 1 waste material will overlay this area, please **include all** engineering specifications for this area inclusive of bearing capacity, settlement calculations etc.to withstand the some 150 feet of surcharge. Also include an outline for the Construction Quality Assurance plan specifically addressing this area.

Any questions regarding this may be directed to the undersigned at 775-687-9477 or [jtaylor@ndep.nv.gov](mailto:jtaylor@ndep.nv.gov).

Sincerely,

Jon Taylor PE CEM
